

**The Kronen Salad and Vegetable Slicer  
Model KG-201 and KG-203**

**Sets new standards in technical quality  
and performance**

We've put all our passion into creating a vegetable slicer which sets new standards.

Top quality, durable and reliable.

With an impressively large filling compartment for quick handling and high performance.

With these models you can choose between single or variable speed settings (three different speeds) - depending on your individual requirements.

Precision is our business and our engineers are justifiably proud of the excellent slicing performance achieved by our machines.

Exact and clean slicing – the result of precision engineering and specially designed blades which are open at the sides.

In a supermarket, a salad bar or in a canteen: Kronen appliances help you to provide variety, well presented salads and help you to achieve an optimal shelf life for your products.

Because we know what we are doing.

**Model KG-203 with three speed settings:  
250 – 350 – 450 rpm**  
because you need to cut fruit slowly, crisp cabbage and other crudités require higher cutting speed. To get perfect results everytime.

The handle for pushing vegetable or fruit into the slicing compartment is suitable for right handed or left handed users – you can even operate the Kronen appliances from the front.

**NEW! The Kronen brunoise and gaufrette cutter.**

You will find this appliance under accessories.

The attachment fits on all table to models.

No problem fitting it on later.

Cuts small dice:

3 x 3 mm or 5 x 5 mm.

**New feature:  
detachable collecting container  
made from stainless steel**

It used to be messy and cumbersome: now you can take off the slicing/cutting compartment for thorough cleaning.

Just rinse it under hot water or put it in the dishwasher.

**Everything made from stainless steel**  
Everything is made from stainless steel in our KG range. We have designed the appliances with easy and thorough cleaning in mind: all parts are detachable – even the push mechanism.

**Exemplary and unique!**  
The detachable cutting compartment made from stainless steel – for exemplary standards of hygiene.  
You only find this feature with Kronen appliances.

**Kronen blades for exact and clean slicing**

**SLICING**

**JULIENNE**

**DICING**

**CRINCLE CUT**

**GRATING**

**Blade discs for the Kronen KG-201/203: stainless steel model, polished, hardened blades**

**Adjustable blades 1–6 mm**  
made entirely from stainless steel, open;  
for all your cutting needs
